**Importance:** Normal  
**Subject:** AVX/Aerovox Next Steps  
**Categories:** ! New Bedford  
**Start Date/Time:** Thur 8/25/2016 3:00:00 PM  
**End Date/Time:** Thur 8/25/2016 4:00:00 PM

UPDATE - WE ARE STILL ON TO MEET TOMORROW AT 11AM - WE WILL MEET IN MT ABRAHAM ON 4<sup>TH</sup> FLOOR

NOTE - IRA MOD CONSTRUCTION WORK IS ONGOING AND WILL NOT BE COMPLETED UNTIL LIKELY SOMETIME IN SEPTEMBER - EXCAVATION WORK HAS YET TO BE INITIATED SO WE HAVE NOT YET PERFORMED SITE-VISITS TO OBSERVE THAT - WE WILL HAVE MORE UPDATED SCHEDULE ON IRA EFFORTS FOR TOMORROW'S MEETING

NOTE FROM WHEN WE INITIALLY SCHEDULED MEETING: Cindy, Elaine and I wanted to get something on the calendar for a management-level discussion on next steps regarding AVX/Aerovox and impacts to the New Bedford Harbor Superfund Site. DEP has granted AVX another extension on the Phase III and it is now due Monday August 22<sup>nd</sup>. In addition, AVX is initiating the IRA Plan Modification efforts, including installation of a DNAPL recovery well system in the northeastern corner of the site where the most significant DNAPL conditions exist at depth and excavation and off-site disposal of DNAPL-impacted shallow soils in two other areas of the site adjacent to the existing sheet pile wall. The IRA Mod construction work is scheduled to be completed by August 19<sup>th</sup>. So we expect by the proposed meeting date of August 25<sup>th</sup> to have participated in site-visits in which we will have been able to observe the exposed sheet pile wall in the two excavation areas and to have completed a preliminary review of the Phase III report. We can brief management on those major project findings and discuss next steps. It will also be important to consider workload implications of any next steps in light of my job transition, so that can be part of the discussion. Thanks.

-Ginny
